PRECEPTORSHIP PROGRAM

Community Outreach Program – Dynamic Integrated Education in Oral Health
Community Empowerment Program

■ **Program Director**

Taufan Bramantoro, DDS-MPH, Ph.D
Gilang Rasuna Sabdho Wening, DDS-MPH

■ **Program Overview**

This program provides opportunities for students to develop their self as much as possible by giving exposure to the community. There are 6 stages of programs: 1) collecting epidemiological data, 2) cause-effect analysis to create empowerment programs, 3) advocacy to stake holder to support the program, 4) implementation of integrated program involving stake holders and community concerned, 5) program evaluation to get a feedback, and, 6) planning new innovative programs based on program evaluation.

■ **Field of Study**

Dental health care management, epidemiology, biostatistic, research method, control and prevention of oral and dental diseases, planning and evaluation for oral health, and social and behavioural sciences as applied to dentistry.

■ **Goals**

1. Creating student long-life learning on community empowerment in real community setting.
2. Obtaining epidemiological data from the community to design innovative empowerment programs and publications.
3. Empowering stake holders with an integrated approach.

■ **Program Schedule**

The program will run two times each calendar year. First session from June to August, and Second Session from December to February. The exact date is negotiable.

■ **Length of Program**

It is 6-weeks full-time program, equivalent to 48 hours or 3 credits.

■ **Status of Preceptors**

Undergraduate students majoring in Dentistry or Dental Hygienist from Universitas Airlangga and Foreign University.

■ **Subspecialty Areas Offered for Preceptorship**

1. Observing and analyzing primary and secondary findings (health data), both independently and jointly with stakeholders
2. Data processing to become a logical, systematic and verification description so that an epidemiology-based program can be produced.
3. Designing, conduct, learn advocacy and negotiate, and evaluate community empowerment programs, both individually and in groups, organized in collaboration with relevant stakeholders.

■ Program Outline

Preceptors will be full participants in the program offered. This consists of the following:

Dates	Location	Topic
Day 1 to 12	Surabaya Sub-district	Epidemiological research in targeted community
Day 13 to 24	Faculty of Dental Medicine Universitas Airlangga	Problem analysis
Day 25 to 35	Surabaya Sub-district	Empowerment program implementation.
Day 36	Faculty of Dental Medicine Universitas Airlangga	Evaluation

■ Certificate

Certificate will be issued by Faculty of Dental Medicine Universitas Airlangga
